

“Staying Home for Pesach” Video

We are all impacted by the COVID-19 pandemic in big ways and small. For many couples and families, one of the biggest challenges is making Pesach for the first time, and for many others, the challenge is not having their children and grandchildren with them at their Yom Tov table. The Agudah reached out to people in different communities and asked them to share their thoughts on this. Please watch, their message applies to us all.
