

Excerpted free translation:

[Agudas Yisroel] fights strongly against the spread of anti-Semitism that raises its head in our time; similarly, it represents Torah Judaism in the offices of local, state, and federal governments, in the matter of laws and government programs; specifically in this time – in the shade of the pandemic that is engulfing the world – this organization stands for the rights of the Torah-observant public.

This organization represents the entire public, all groups and layers of Klal Yisroel. The organization's strength is defined by and depends on the attachment and unity of the individuals who are bound together by its distinguished mission to continue the chain of Torah in its purity, holiness, and uniqueness.

It is our obligation to join as members in this wonderful organization; by doing so, we will make its strength and activities greater. Its representation before government officials grows based on the number of members. So, we turn to you with a request that every person should join as a member, and with this merit we should all see the raising of the prestige of Torah and mitzvos.

Add your family to the drive today.
